FLINS PLANT TO PRODUCE CLIO COLLECTION

Starting in November, the Flins plant will produce Clio Collection, alongside New Clio and ZOE. Based on Clio III, Clio Collection is Renault's entry-level offer in the B segment.

New Clio, ZOE and Clio Collection will all be produced on the same production line. This impressive industrial achievement is the fruit of work carried out over the last two years by the Flins plant, which had to restructure installations and adapt its organization system to manufacture the three new models on the same line. The Flins plant also worked hand in hand with the Renault Technocentre to reduce the production cost of Clio Collection in order to sell it at an attractive price.
