

RENAULT, AT THE FOREFRONT OF THE 2025 EXPOFRANCE PROJECT PARTNERS

- **The president of France officialised France's bid to host the 2025 World Expo.**
- **This compelling and mobilising perspective represents an extraordinary opportunity for the company to showcase its human capital and technological expertise to the whole world.**
- **With 27 other French leader companies and the authorities, the Groupe Renault is since 2013 in the forefront of EXPOFRANCE 2025 partners, with whom this project has been imagined and spread as an accelerator of economic development and innovation.**

The public - private mobilization is a clear reflection of Groupe Renault's values and dedication to innovation:

From the zero emission vehicle, with a range of 100% electric vehicles, to connected vehicles and autonomous cars, Renault keeps driving French technology forward, to promote sustainable mobility for everyone.

This vision of interconnected and sustainable mobilities – some of the greatest challenges facing smart cities – will set the tone for the project that France will put forward, through visitor experiences and mobility solutions available during the event. This is a unique opportunity for the 2025 host to showcase its culture, history and champions, and to strengthen its economy

Groupe Renault sees EXPOFRANCE 2025 as an exciting adventure, as it conceives vehicles designed for all those who want to fully live their life.

"This is, for all those involved, at the forefront of which Groupe Renault, a wonderful chance to unite their different and complementary perspectives, as well as their know-how, to promote further the image of French dynamism. Through a powerful and efficient public – private partnership, France is delighted of the success of its industrial jewels which are the window of the French technological innovation", said Mouna Sepehri, member of the Renault Executive Committee and Executive Vice President, Office of the CEO, during the meeting on October 21st.
