## RENAULT INAUGURATES GLOBAL DESIGN STUDIO IN MUMBAI

After entering India 3 years ago through a joint venture with Mahindra & Mahindra for the production and distribution of Logan, Renault today reaffirmed their continuing commitment to India by inaugurating the Renault Design India studio in Mumbai. Renault Design India is the first real design studio by any automobile manufacturer in India. As such, its role is to go from the initial design to the production of mock-ups and prototypes, including the digital design phase. Renault Design India is the sixth addition to Renault's international network of satellite design centres.
