## **REVAMP OF THE SUSTAINABLE MOBILITY WEBSITE**

Our sustainable mobility website [www.sustainable-mobility.org](http://www.sustainable-mobility.org) has had a makeover. The site focuses specifically on initiatives and innovations that make transport compatible with accessibility and sustainable development anywhere in the world. You can now keep abreast of sustainable mobility news in 10 categories, ranging from two-wheelers and electric and hybrid cars to sustainable cities. The Resource Centre will expand your knowledge of key issues, while the Forum features opinions from experts, researchers, bloggers, elected officials and students.

Having won over a specialized audience, which contributed to the site's success, the new-look Sustainable Mobility intends to be a webzine open to everyone.
