

## PRESS RELEASE

September 1, 2010

### **THE RENAULT GROUP INAUGURATES MAJOR NEW SPARE PARTS CENTER IN OARJA, ROMANIA**

The Renault group inaugurated its new spare parts and accessories center in Romania on September 1, 2010. The warehouse is located in the locality of Oarja, 28 km from the Dacia plant in Mioveni, with easy access to the Bucharest - Pitesti highway.

The 65,000 m<sup>2</sup> building houses the Renault group's largest spare parts and accessories distribution center outside France, able to stock more than 70,000 references. The warehouse will supply original spare parts to the Dacia, Renault and Nissan networks in Romania, as well as to the Dacia sales networks in 33 other countries.

From the outset, the new center, which employs 160 people, was designed to cater for the needs of the Dacia brand as it develops into and beyond 2015.

According to Jacques Daniel, the Renault group's Worldwide VP of After-Sales, "The new spare parts and accessories distribution center will help to improve the Renault group's after-sales services in Romania by supplying original spare parts and shipping them promptly." The center is capable of responding to urgent orders by shipping parts in stock to any customer in the Dacia, Renault and Nissan networks in Romania in less than 36 hours.
