LE MANS IN THE ZERO-EMISSION AGE

Marcel Brouiller, director of Renault's Le Mans manufacturing site, welcomed Jean-Claude Boulard, mayor of Le Mans and chairman of Le Mans Métropole, on April 14 as part of the "**Le Mans in the Zero-Emission Age**" operation. The mayor test drove a Fluence Z.E. and visited the facilities dedicated to the production of chassis components for electric vehicles. At the end of the tour he said he was won over by the electric vehicle and enthusiastic about his visit.

Along with its current activities for the Group's internal combustion vehicles, the **Le Mans site** will produce part of the chassis components for Kangoo Z.E. and ZOE as well as the engine support frame and the battery compartment for ZOE.
